PROFILE

I am a Vermont-based media artist, production manager, designer, filmmaker, musician, photographer, and lover of all things creative. In addition to being a content creator, freelance designer, consultant, and media producer, I teach media arts and production technology in CTE and post-secondary education centers through a variety of courses and offerings.

I put energy, personality, and passion into everything that I create and am a part of. I seek new opportunities to share, collaborate, and expand my creative and technical abilities in event production and media applications.
